DELIVERED DIGITAL PROJECT

Building a digital presence for international technology distribution

Ghali Technologies corporate website

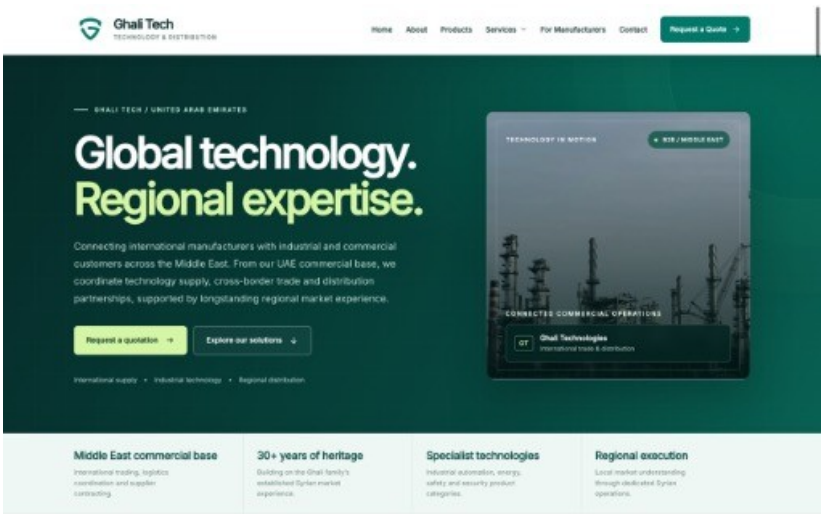

Business strategy, technical portfolio communication and responsive B2B development.

Actual desktop and mobile homepage captures · November 2026

Complex technologies. Multiple audiences.

Ghali Tech needed a corporate presence that communicates its UAE-based commercial operations and technical distribution focus.

01

Corporate positioning

Explain the business and its international orientation.

02

Portfolio clarity

Organize technologies and applications.

03

Commercial engagement

Create relevant pathways for prospects.

From business model to website architecture.

Seven documented pages, each with a defined commercial function.

Shared navigation and calls to action

Conceptual page architecture derived from the website captures.

One platform.
Two commercial audiences.

Different content and next steps for buyers and prospective manufacturer partners.

INDUSTRIAL BUYERS	MANUFACTURERS
Explore technologies	Understand market focus
Review sourcing services	Explore cooperation models
Prepare requirements	Introduce company & portfolio
Request a quotation	**Discuss a partnership**

Illustrative pathways based on page content, not measured user behavior.

Making complex portfolios easier to navigate.

Product-led discovery and industry-oriented communication work together.

Technology areas

16
Named categories

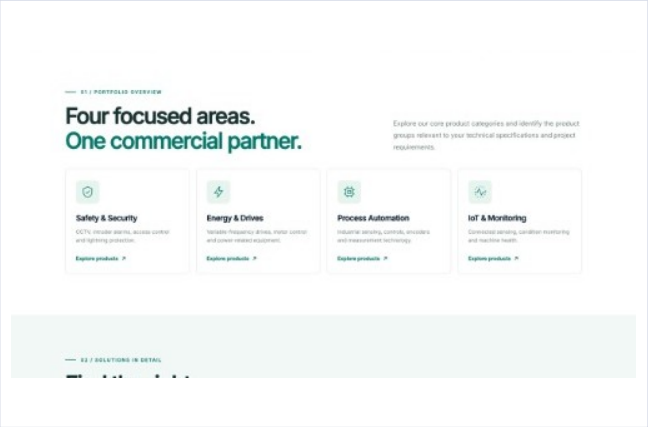

6
Industry segments

Safety & Security

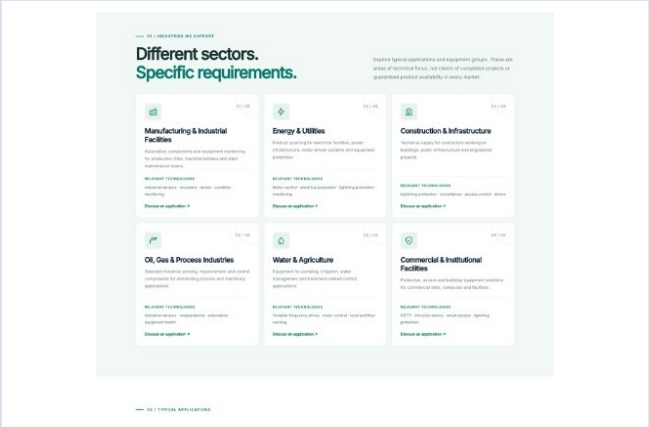

Energy & Drives

Process Automation

IoT & Monitoring

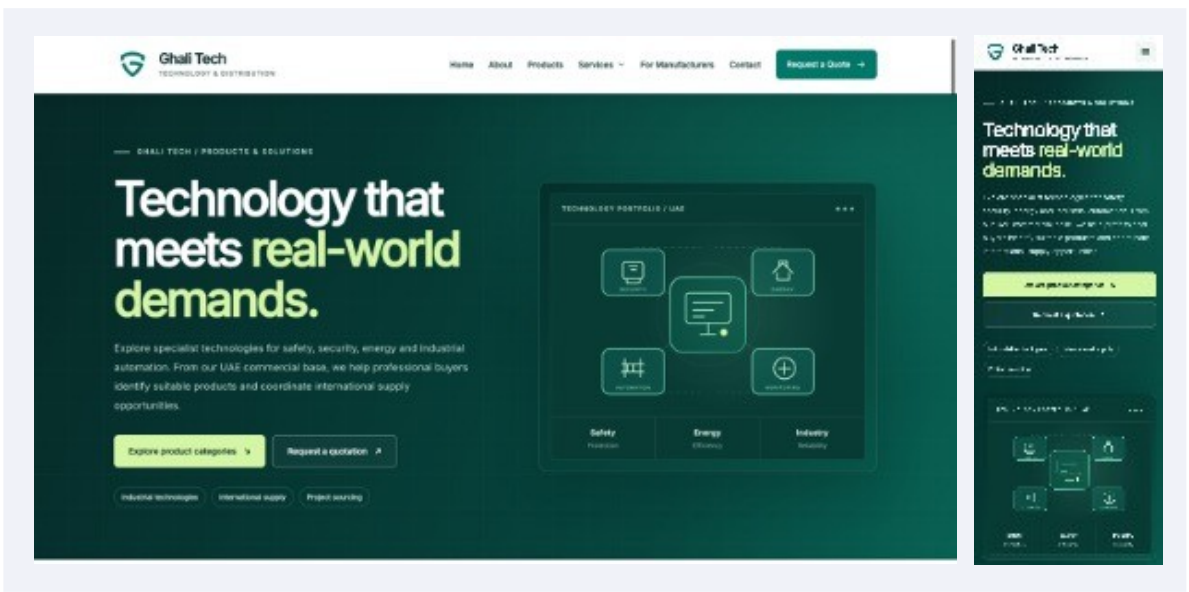

Technology categories

Industry applications

A coherent digital experience.

A distinctive industrial visual language, carried across desktop and mobile layouts.

Consistent design

Repeated hierarchy, cards and navigation.

Responsive layouts

Desktop grids adapt to narrower screens.

Action-led content

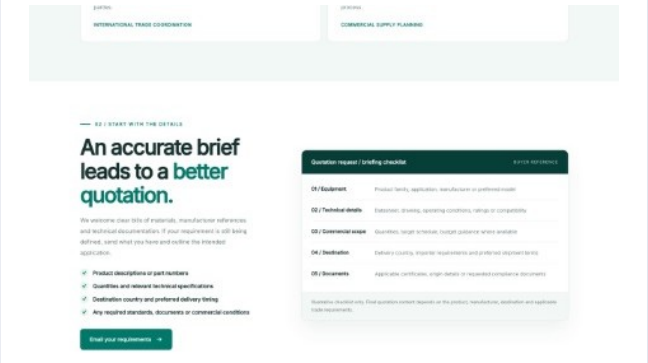

Quotations, processes and partnership CTAs.

Mobile screenshots illustrate layout; fine-text resolution is limited.

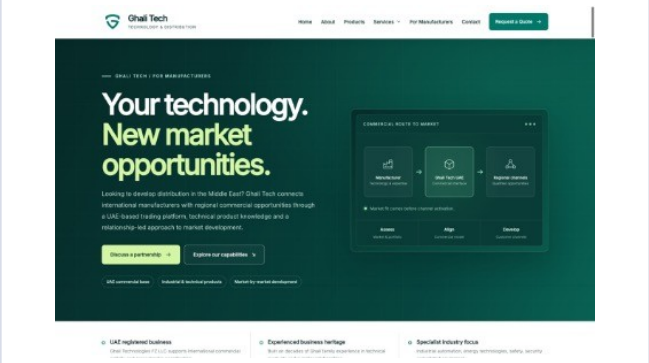

From strategy to digital delivery.

A completed corporate website designed to support technical commercial communication.
